Lionel Sanchez, *interior designer*

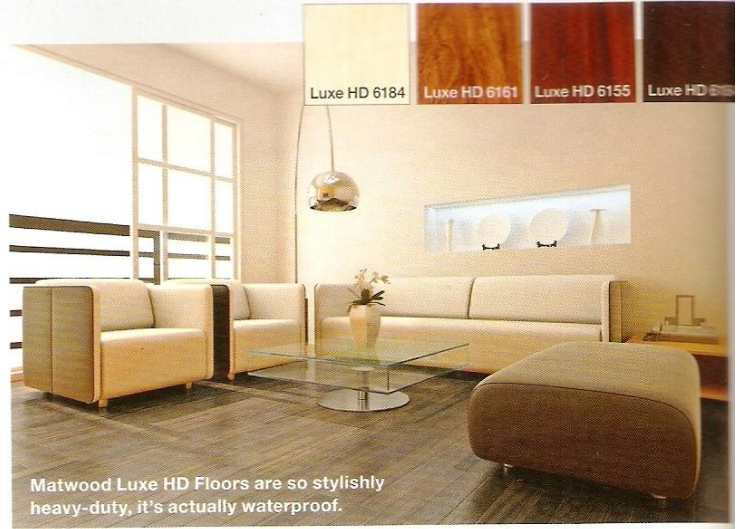

Aside from being a licensed interior designer and member of the PHID Cebu, Lionel is also a professor at the University of San Carlos, his alma mater, where he graduated Magna Cum Laude. Soon after, he started Sanchez Design Studio, Inc., a full-fledged design firm specializing in interior design, furniture and accessories design, interior construction and other design consultation needs. Lionel gives us basic tips and tricks on how to use wood in our homes on “Interior Motives” on page 54.

Tips in choosing flooring materials and doors:

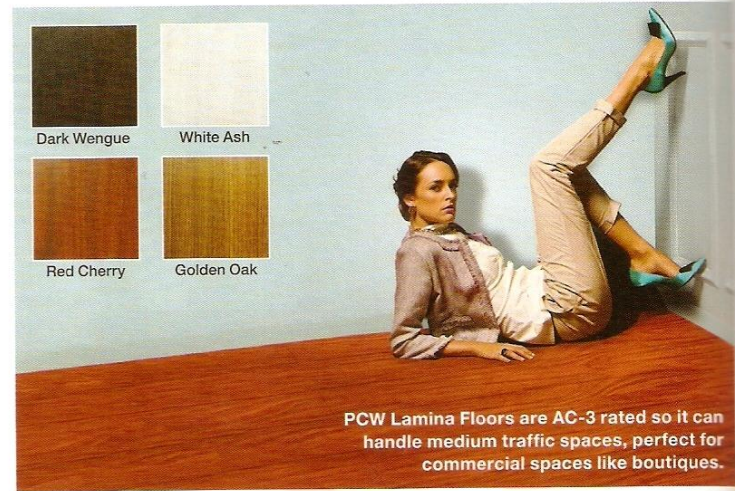

- 1 Remember that your home's opening statement will always be your door, make sure it introduces your design sensibilities well with its look, feel and make. Matwood Classic Doors, made of real solid wood for that elegant feel, offers designs that mesh perfectly with various interior designs to prepare your guests for your dazzling interiors.
- 2 For interior spaces, best to choose only one door design if it will be seen within sight of each other. Veneer moulded doors by Matwood will do as solid doors might be deemed impractical, cost-wise.
- 3 Don't underestimate the visuals floors give, they are anchors to your design. For bedrooms, go for Signature Floors of Matwood for the elegant rich grains and color Jatoba, a highly-desirable wood specie, gives. For high foot traffic areas, heavy-duty waterproof Matwood Luxe HD Floors are your best elegant bets.
- 4 Don't be shy to use PCW Engineered and Laminated Floors to dress up your floors and accent walls too. With their grain designs and colors, you'll surely delight your guests with exciting design ideas.
- 5 With WW Easy Deckstyle, worry not about limited design options outdoors. Use it as your outdoor area rug to group furniture neatly or simply, a personal rug for yoga. Discover it is easy to bring the tropical resort look to your garden with WW Easy Deckstyle.

Matwood Splendido Doors are crafted to impress rooms with rich natural grain veneers and timeless designs in a stylish, worry-free manner.

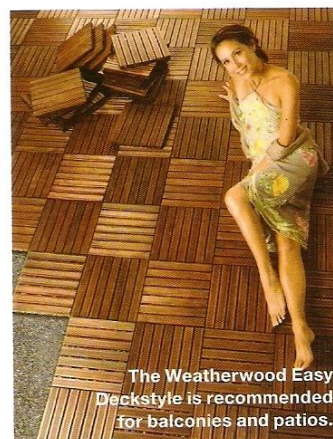

Matwood Luxe HD Floors are so stylishly heavy-duty, it's actually waterproof.

PCW Lamina Floors are AC-3 rated so it can handle medium traffic spaces, perfect for commercial spaces like boutiques.

INTERIOR MOTIVES KNOCK ON WOOD

Interior Designer Lionel Sanchez, PHD Cebu, designs with hardwood floors to meet discriminating tastes of his up-market clients. From solid wood planks to composite and engineered floor panels like IDR, for Lionel, Matimco is your reliable one-stop shop for stylish wood materials like floors. Matimco has been contributing to the design industry for

The Weatherwood Easy Deckstyle is recommended for balconies and patios.

nearly half a century, expertly offering quality wood floors, doors, framings, cornices, trusses and even outdoor decks to this day. This wood company is so meticulous in wood quality, it is ISO-certified and green-compliant that all their materials are always sourced from tree farms all over the world to ensure sustainability.
